

ADAPTIL® Travel

Reduces car travel stress in as little as 5 minutes.*

Spray

- Convenient while travelling
- Apply at least 8 sprays
- Spray area where dog will sit in car or in a carrier
- Wait 10 minutes before introducing the dog
- Lasts up to 4 to 5 hours
- Available in: 20ml and 60ml

ADAPTIL®

Releases "comforting messages"*

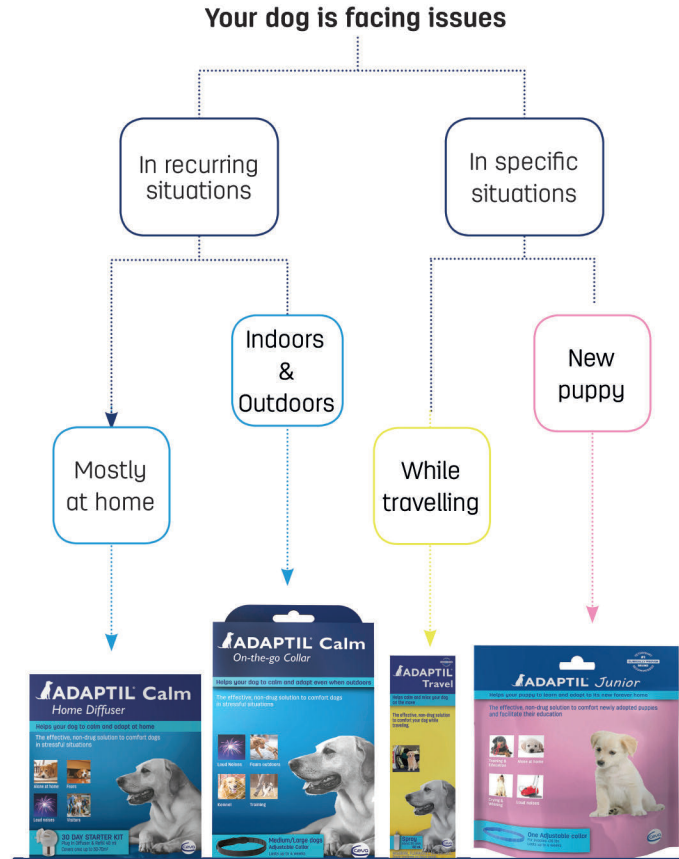

Mother dogs communicate with their puppies through these "comforting messages" (Dog Appeasing Pheromones). These "comforting messages" provide a strong signal of security and comfort to dogs of all ages.

- Used by vets and dog owners worldwide for 17 years
- Clinically proven*

The Complete ADAPTIL® Range

Comfort dogs at all times.

"My two dogs, Archie and Spencer, get stressed out and anxious especially during the summer with thunderstorms and fireworks. They would cry, pace and shake. Now every summer we use ADAPTIL Calm and they relax on their beds instead of being scared. If your dog gets anxious, you should try ADAPTIL Calm."

Michelle, Baltimore, MD
